OBJECTIVE

To work in an environment which encourages me to succeed and grow professionally where I can utilize my skills and knowledge appropriately.

PROJECTS

AMAZON CLONE

Developed a responsive front-end clone of Amazon's homepage using HTML and CSS. Implemented key sections like navbar, product grid, and footer using Flexbox and Grid. Strengthened skills in web layout and UI design.

COMMUNITY SERVICE PROJECT

Built a real-time Hand Actions Decoder using Python, OpenCV, and TensorFlow to assist deaf and mute individuals by translating hand gestures into text and speech. Developed a CNN-based gesture recognition model with a Tkinter GUI and Text-to-Speech integration. Tested the system in a community setting to enhance communication and inclusivity.

SMART RECYCLING SERVICES

Developed a responsive website for EcoRecycle Finder to promote eco-friendly recycling solutions. Designed intuitive layouts and contact sections ensuring user-friendly navigation and accessibility.
